BOOKFLIX®

Build a Love of Reading and Learning with Paired Fiction and Non-fiction—Online!

INCLUDES the video storybook *Scaredy Squirrel* by Canadian author Mélanie Watt

BookFlix is a best-selling digital literacy resource that pairs classic, fictional video storybooks with top-quality, non-fiction eBooks to reinforce early reading skills and develop essential real-world knowledge and understanding.

With colourful animation, rich audio, interactive content, and more, **BookFlix** will engage every student in your classroom or school library.

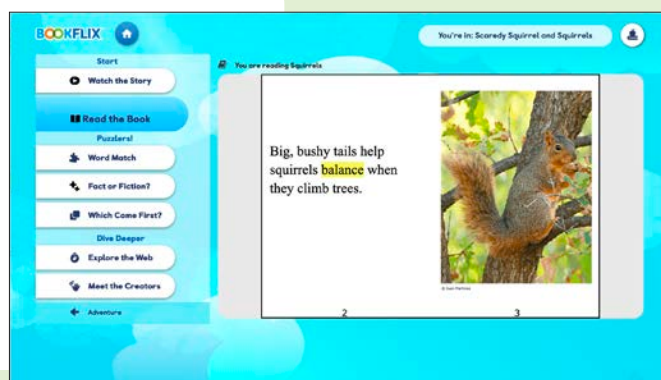

Watch the Story!

Video adaptations of classic children's books will motivate beginning, reluctant, and ELL students—and enrich their interactions with books.

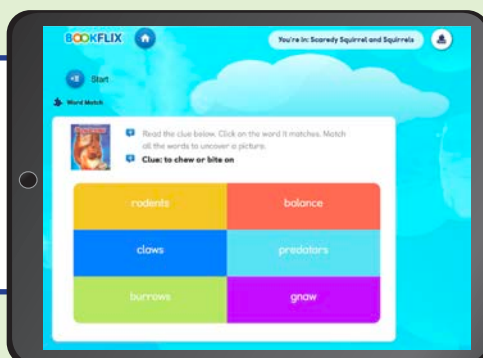

The Read Along feature highlights each word on the screen as it is narrated in the video, reinforcing early reading skills, including fluency, vocabulary, and comprehension.

Read the Book!

Paired with each video is a non-fiction eBook to build content-area knowledge and introduce real-world facts. Students can build vocabulary as key words are defined. A Read Aloud option allows students to listen to the book and see each word highlighted as it is read.

Tablet-friendly and includes remote access, so the resource can be used at home!

BookFlix also features:

- Educator resources
- Detailed lesson plans
- Interactive educational activities
- Author biographies
- Editorially selected links to websites

FIRST™

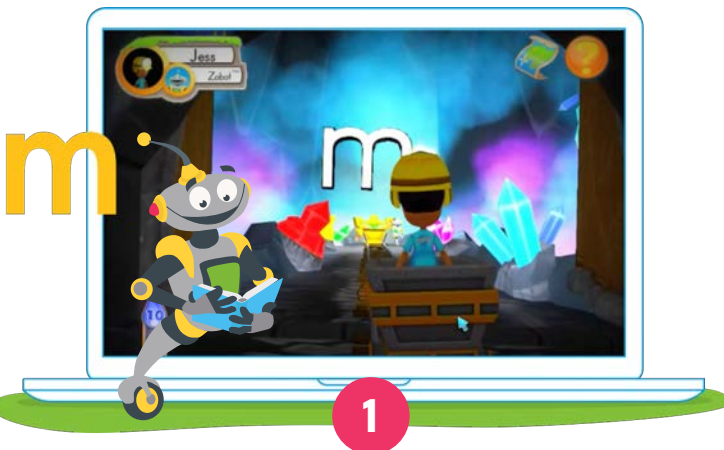

Learning to Read Begins with a Single Sound

Foundations in Reading, Sounds & Text
An Adventure on **OOKA ISLAND®**

Scholastic F.I.R.S.T. actively personalizes each student's path toward reading proficiency through an adventure on the magical world of **Ooka Island**.

Through a phonics game-based digital learning environment, students will learn some of the foundational skills needed to become confident readers.

Access
anywhere,
anytime!

1 Immediate Scaffolding

Immediate scaffolding is provided to students based on their micro-actions, combined with research-derived and developmentally appropriate learning outcomes. For example, in the Cave of Sounds, students who don't select the target sound within one second are offered visual cues, audio instruction, or extended pacing of instruction to ensure automaticity.

2 Activity READirect

To ensure mastery, a striving student's responses in one activity creates a new path, with related content, in a different activity. This active personalization reinforces skill development in real time and prevents students from continuing to struggle or being moved ahead without a solid foundation.

3 Reading READirect

A Reading READirect is activated to move students ahead or back along the book path of the 85 carefully sequenced ebooks. Accelerations and interventions are based on a student's grade level combined with his or her average scores across multiple ebooks and activities, at key text milestones.

Program Features:

- Increases student proficiency in phonemic awareness, phonics, fluency, vocabulary, and comprehension
- Continuous formative assessment that plots a personalized path for each student
- Actionable reporting, delivered in real-time, at the student, class, school, or district level

ONLINE ASSESSMENT OF READING

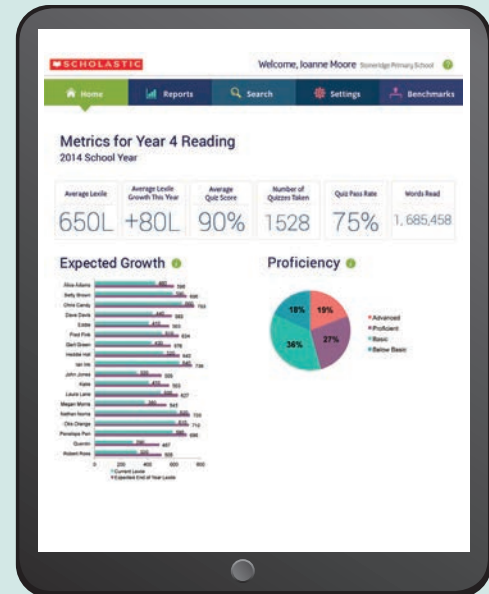

SOAR

The best choice to measure reading comprehension and progress

This computer-adaptive digital resource assesses student reading comprehension and provides **actionable real-time data** educators can use to:

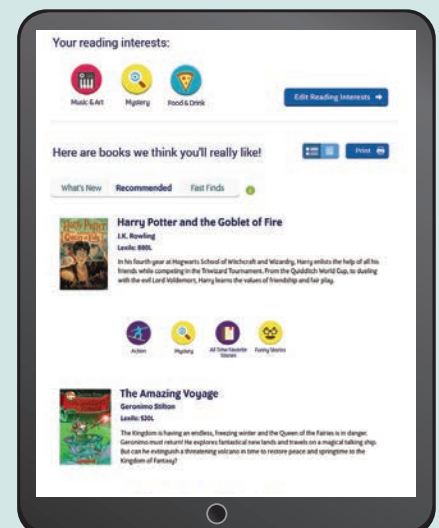

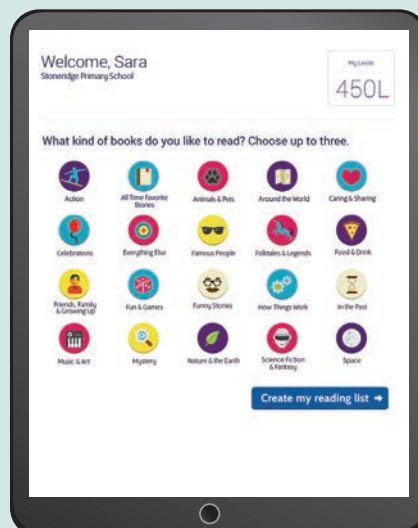

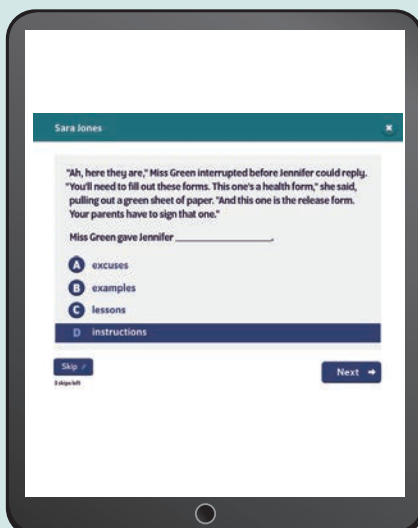

- ▶ Monitor students' reading progress over time
- ▶ Match students to books that deliver an appropriate level of challenge
- ▶ Craft instruction to meet individual and group goals and needs
- ▶ Allow students to change topics throughout the year
- ▶ Easy to administer and adaptable software to assess individual reading skills and track progress

SOAR is powered by the Lexile® Framework
The Lexile test is a proven, computer-adaptive assessment, based on 30 years of research.

How the Program Works

- 1 Students take a 20-minute test 3–5 times a year to determine their Lexile reading level.
- 2 Students select reading topics that interest them.
- 3 Students choose books to read from personalized reading lists in their targeted Lexile range.
