---

Read your sentences.

# Fossils

Name:

Date:

Write in the correct words. Use these words:

back leg

beak

front leg

neck

wing

Read the words you wrote.

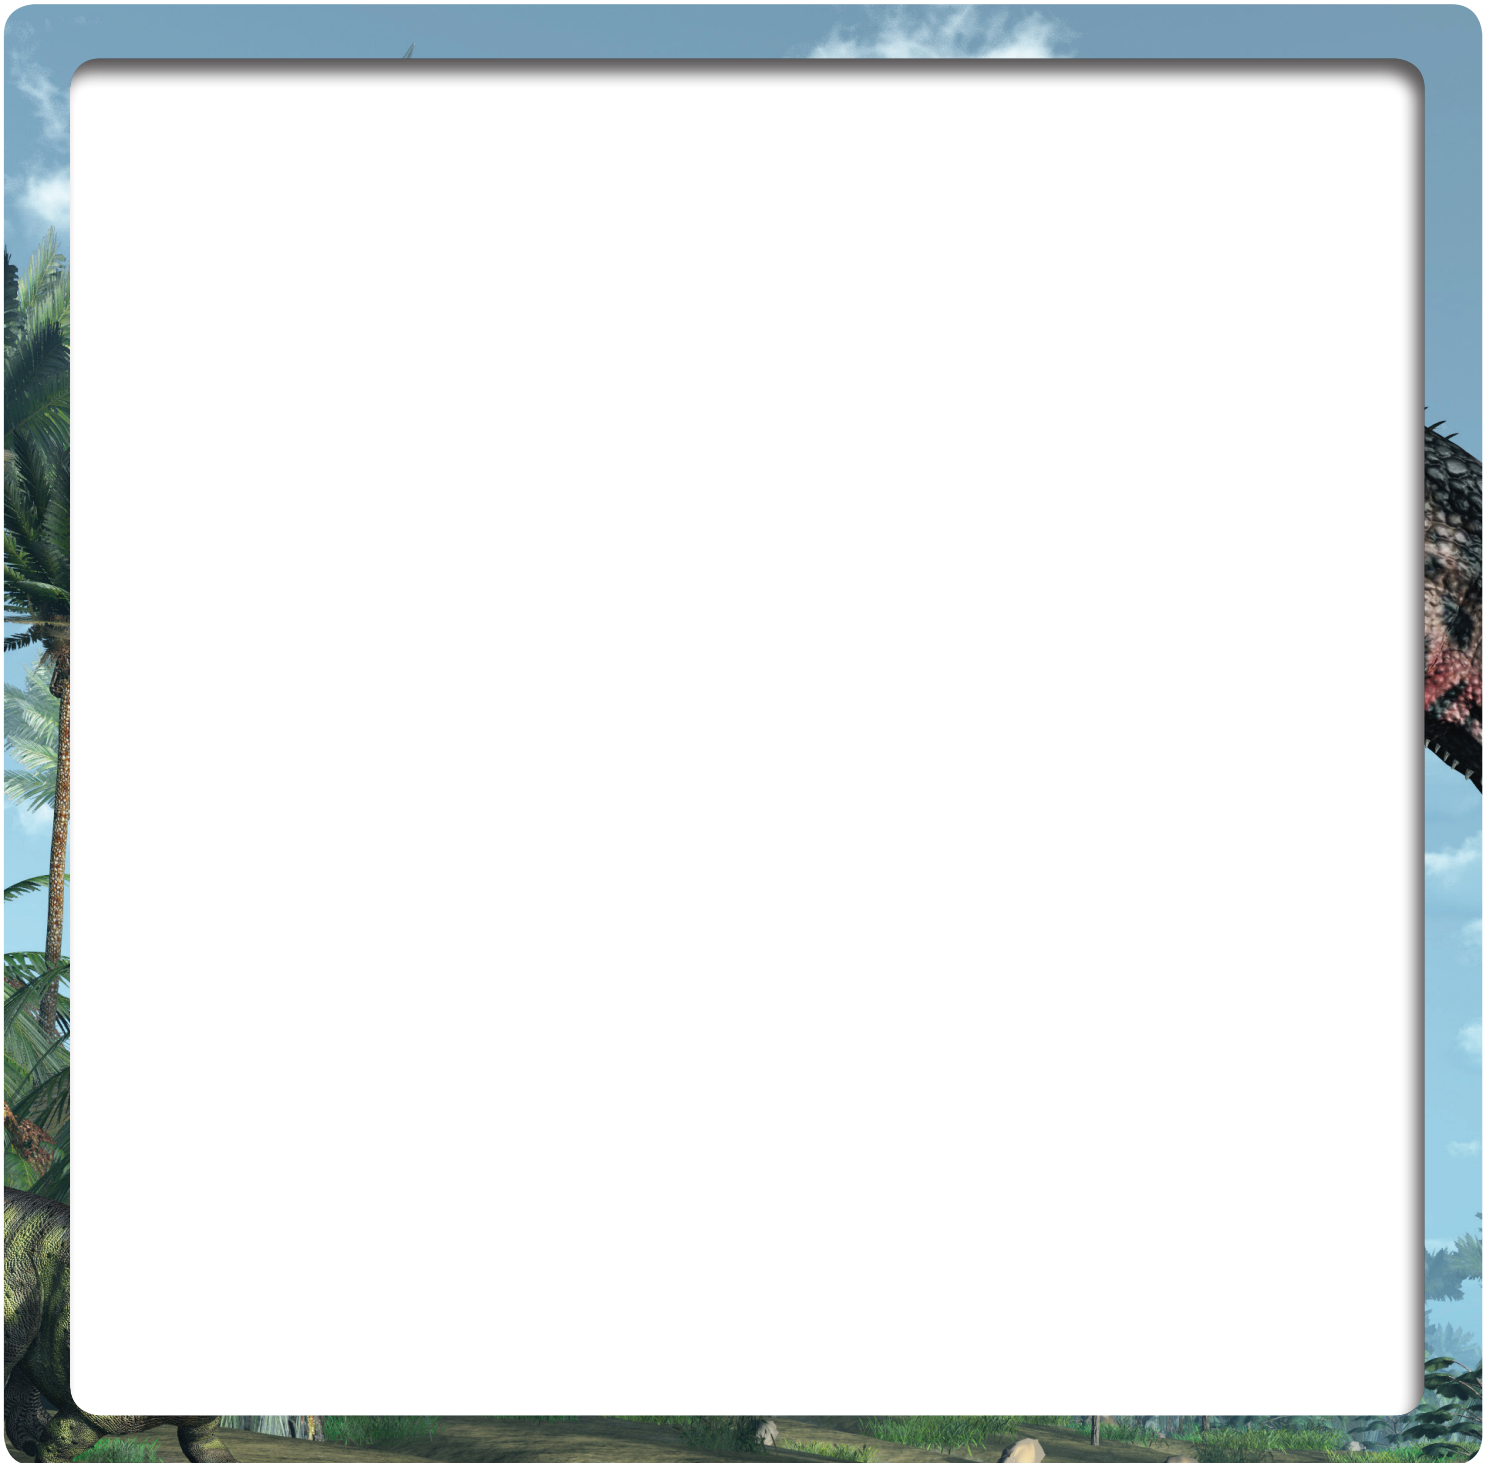

# Fossils

Name:

Date:

Draw a picture of a dinosaur.

# Fossils

Concept: Scientists can tell many things about extinct animals by studying fossils.

## *What You Need:*

- a sheet of construction paper
- coloured pencils
- animal footprint stamp and ink pad

## *What You Do:*

- Choose an animal.
- Draw a picture of the habitat it lives in.
- Use the ink pad and the stamps to mark the animal's tracks.

## *What You Should Notice:*

Notice the habitat the animal lives in, and the size and direction of its tracks.

## *Explanation:*

Explain what you can tell about the animal based on its footprints. For example, its size or movement.
