Light

Talk About
Science in My World

Name:

Date:

Write in the correct words. Use these words:

fire fireworks lightning match street lamp sun

Read the words you wrote.

Light

Name:

Date:

Write in the correct words and phrases. Use these:

Light moves.

The light goes through
the window.

Light moves in a
straight line.

The light hits the window.

window

Light

Concept: Light bends when it moves through certain things.

What You Need:

- a cereal box
- a glass
- water

What You Do:

- Put the glass close to the nutritional information on the cereal box.
- Look through the glass at the print.
- Note the size of the words and how easy they are to read.
- Fill the glass with water and put it back close to the nutritional information again.
- Read the list again.

What You Should Notice:

The print is bigger when you fill the glass with water.

Explanation:

Explain why the print is bigger when the glass is filled with water.
