---

---

---

---

---

Read your sentences.

# Rocks

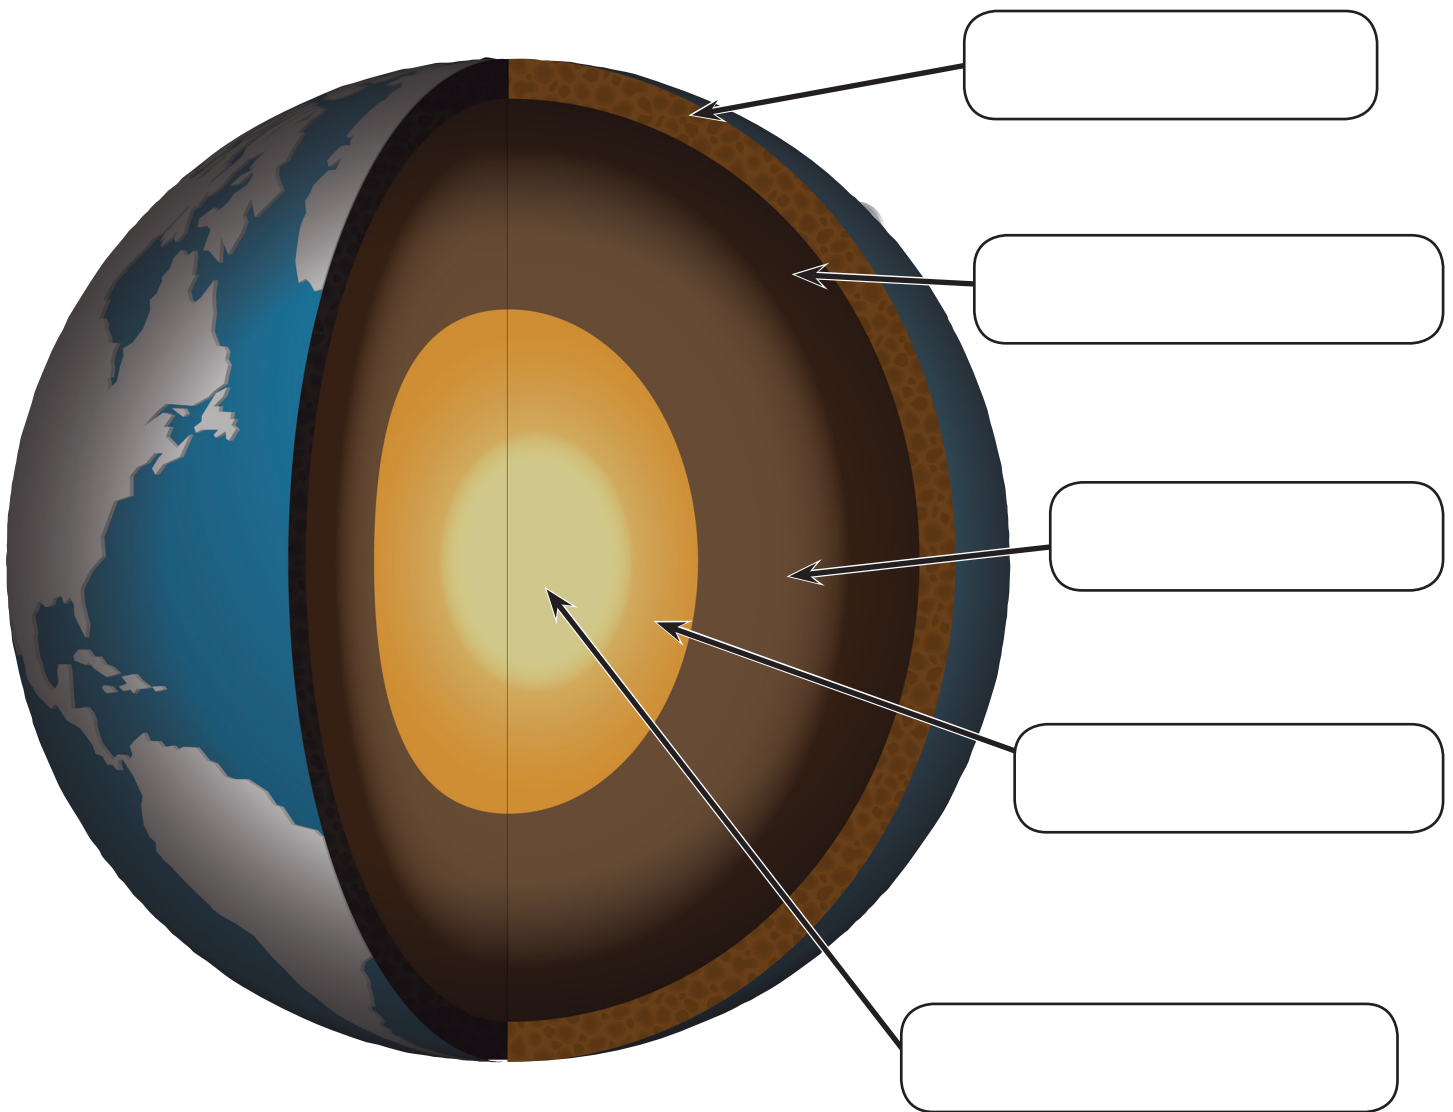

Name:

Date:

Write in the correct words. Use these words:

crust      inner core      mantle      outer core      upper mantle

Read the words you wrote.

# Rocks

Name:

Date:

Draw pictures to show how people use rocks.

The drawing area is a large rectangle with a grey, textured background. It contains seven white rectangular boxes of varying sizes, arranged in three rows. The top row has three boxes of equal size. The middle row has a large box on the left, a smaller box in the center, and a large box on the right. The bottom row has a large box on the left and a very large box on the right that spans most of the width of the drawing area.

# Rocks

Concept: There are different types of rocks.

## *What You Need:*

- three different rocks
- a metal bottle cap
- scissors

## *What You Do:*

- Make a chart like this:

Which Objects Leave Marks on Rocks?			
	fingernail	bottle cap	scissors
rock 1			
rock 2			
rock 3			

- Scratch each rock with your fingernail, the bottle cap, and the scissors.
- Record your findings on the chart.

## *What You Should Notice:*

Some of the objects will scratch some of the rocks.

## *Explanation:*

Explain why the rocks could or could not be scratched.
