waxing

Read the words you wrote.

# The Moon

Name:

Date:

---

Draw a picture of the first Moon landing.

# The Moon

Concept: The moon has phases.

## *What You Need:*

- a light
- a tennis ball

## *What You Do:*

- Hold the tennis ball in front of you just above your head.
- Have a friend shine the light onto the tennis ball.
- Look at the tennis ball.
- Keep on looking at the tennis ball as you slowly turn around.

## *What You Should Notice:*

The light hits different parts of the tennis ball as you turn around.

## *Explanation:*

Explain how this experiment connects to the Moon and its phases.
